

# CHOP CUT REBUILD THE SERIES

January 12, 2007

Mr. Spencer Easton  
Oakville, Ontario

Dear Spencer,

With the new race season about to begin in a few short weeks, I wanted to express my gratitude for your past services. Your action photos... particularly of Champ Car events have been a joy and pleasure to receive. In the five years since you first began supplying photos to our television productions, the quality of your work has improved immensely. So too, has the subject of your work. It has gone from a focus on just cars and drivers, to capturing the feel and emotion of every race event you attend.

I look forward to the upcoming 2007 season in great anticipation of receiving your next round of automotive event images. They are a great enhancement of our corporate image and improve our relationship with viewers, sponsors and of course our relationships at SPEED Channel.

Keep looking at life through the shutter... You do a wonderful job of it!

Sincerely,

Dan Woods,  
President and Executive Producer
